Your medical network is Wise Provider Networks.

What is a medical network?

Your medical network is a group of healthcare providers. It includes doctors, specialists, hospitals, surgical centers and other facilities. These healthcare providers offer services at a lower rate than out-of-network providers, which you will see reflected on your statements as a discount.

What if I go outside of my medical network?

There may be times when you decide to visit a doctor or clinic that is out-of-network. The costs for these visits and services will always be higher than seeing doctors that are in-network. You will be responsible for paying the difference between the provider's full charge and the amount your health insurance plan pays. This is called balance billing.

How do I know if my provider is in-network?

Please visit AMTbenefits.com, and click "Find a Doctor."

Your Pharmacy Benefit Manager is EHiM.

What is a Pharmacy Benefit Manager?

Pharmacy Benefit Managers (PBMs) reduce prescription drug costs and improve convenience and safety for consumers. Your PBM administers your prescription drug plan and offers a network of pharmacies that offer more affordable medications.

What is mail order?

If you take maintenance medications for long-term conditions like arthritis, asthma, diabetes, high blood pressure or high cholesterol you could save money with EHiM's mail order service, Alliance Rx Walgreens Prime. Visit [AMTbenefits.com](https://www.amtbenefits.com) for more information on how to get started and to download the Alliance Rx Walgreens Prime mail order forms.

What are Generic drugs?

Generic drugs are copies of brand-name drugs and are the same as those brand-name drugs in dosage form, safety, strength, route of administration, quality, performance characteristics and intended use. Although generic drugs are chemically identical to their branded counterparts, they are typically sold at substantial discounts from the branded price.

To find out if there is a generic equivalent for your brand-name drug, talk to your doctor or visit [EHiMRx.com](https://www.EHiMRx.com).

Maternity support

Our Boost Your Baby program matches moms-to-be with a Mommy Mentor to support a healthy pregnancy. It's a non-clinical support system for future moms to use throughout their pregnancy. We promise to: provide good and honest information, be supportive when you need us, make life easy and simple (at least the parts we can), and respect mom & dad's wishes.

Benefits of program include monthly support from a mommy mentor, free breast pump and gifts, nurses available 24/7 for any medical advice or high risk care, and miscarriage support.

Visit boostyourbaby.com, or call 800-808-4848 to learn more.

Care management

If you need a medical service like a surgery or hospital stay or your doctor diagnoses you with a complex medical condition, a HealthEZ nurse may contact you. The nurse will help you understand your treatment options, coordinate services among your doctors and ensure you have everything you need for a quick recovery and are receiving the right care in the right setting.

We provide tips to members living with chronic health conditions, like diabetes, hypertension and high cholesterol. We can also provide these members with referrals to healthcare providers. Our team of doctors and nurses believe that the key to lasting change is partnering with you to offer realistic advice and support.
