Your medical network is Wise Provider Networks.

What is a medical network?

Your medical network is a group of healthcare providers. It includes doctors, hospitals, surgical centers and other facilities. These healthcare providers offer services at a lower rate than out-of-network providers, which you will see reflected on your statements as a discount.

What if I go outside of my medical network?

There may be times when you decide to visit a doctor or clinic that is out-of-network. The costs for these visits and services are often higher than seeing doctors that are in-network. You will be responsible for paying the difference between the provider's full charge and the amount your health plan pays. This is called balance billing.

How do I know if my provider is in-network?

Please visit your dedicated Benefits Website and click "Find Care."

Your Pharmacy Benefit Manager is EHIM.

What is a Pharmacy Benefit Manager?

Pharmacy Benefit Managers (PBMs) reduce prescription drug costs and improve convenience and safety for consumers. Your PBM administers your prescription drug *plan* and *offers a network* of pharmacies that offer more affordable medications.

What is mail order?

If you take maintenance medications for long-term conditions like arthritis, asthma, diabetes, high blood pressure or high cholesterol you could save money with EHIM's mail order service, Alliance Rx Walgreens Prime. Visit EHIMRx.com for more information on how to get started and to download the Alliance Rx Walgreens Prime mail order forms.

What are Generic drugs?

Generic drugs are copies of brand-name drugs and are the same as those brand-name drugs in dosage form, safety, strength, route of administration, quality, performance characteristics and intended use. Although generic drugs are chemically identical to their branded counterparts, they are typically sold at substantial discounts from the branded price.

To find out if there is a generic equivalent for your brand-name drug, talk to your doctor or visit EHIMRx.com.
